

THE WHOLENESS OF TRANQUILITY

BRAND MANIFESTO

QUIL redefines your bathroom experiences by offering the deepest soul of wellness "TheWholenessofTranquility" through the unique design conveying Thai spirit in every single details.

Delicately craftsmanship, tenderness and humbleness are the principles of Thai essences that create the serene warm welcome atmosphere to the whole, transforming your lifestyle to the next level of mindfulness. Beyond relaxation.

QUIL bringing back your calm energy, the feeling after your exquisite refined retreat, uplifting your mind, body & soul, perfectly blended with your whole wellness journey.

its surfa created your ey Such re beauty of the with th design

QUIL

Add charm with the harmonious contrast of black and white shades, reminiscent of the image of a clear, pure white sky of "Serene White" that meets the lake in the horizon, which is tinged with the dark shadows of pine trees reflecting the sunlight. The inspiration for the color "Estelle Black" creates beauty in the memory.

dancing with the waves.

Embrace the warmth as if being released on the water in the late afternoon, when the sparkling sunlight dances with the water surface with the colors "Twilight Gold" and "Timeless Taupe", giving a feeling of infinite relaxation.

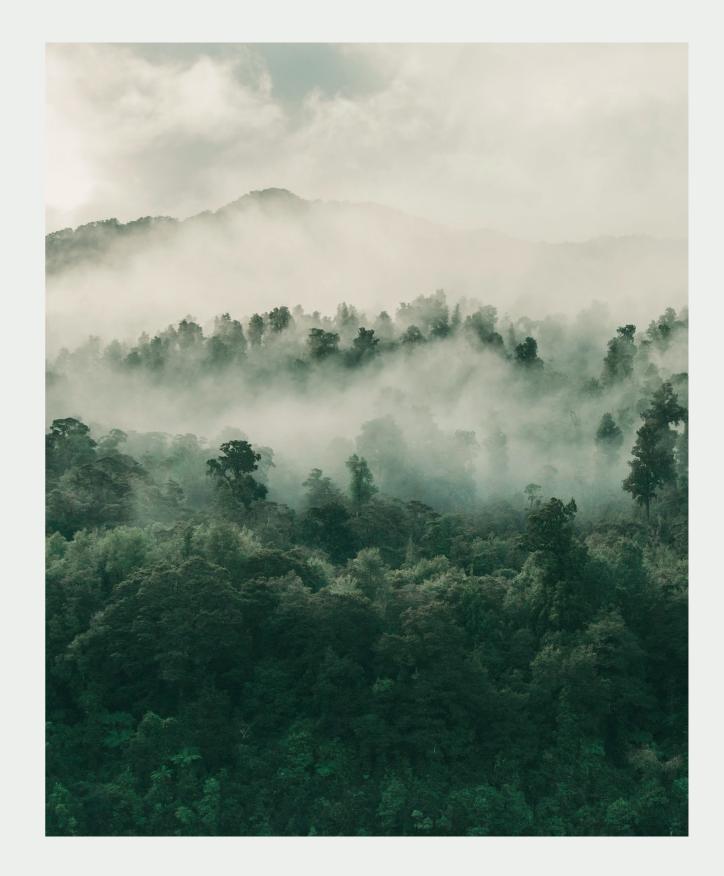

Inspired by the moments of natural indulgence as if reclining your body into a lake glittered with sun rays sparkling on its surface. At the moment of wading and diving, ripples are created one after the other, until the waves spread out, leading your eyes to see the surrounding fresh pine forest.

Such reflections inspire the "QUIL" collection that conveys the beauty of relaxation in serenity by arranging for the curves of the water ripples on the surface of the lake to blend in with the warm sparkle of sunshine. The interpretation and design are meticulously crafted into every product, bringing relaxation to your personal time.

Experience the serenity of gray-black shades, which are added with a gleaming dimension with the colors "Nimbus Grey" and "Estelle Black", like the cool mist that floats through the towering shadows of the high mountains and the sun's rays
